Modern combat 4 zero hour mod apk obb

Modern Fight 4: The action of Zero Hour is also very hot: After the outbreak of disaster, global security is tied to the hands of several elite soldiers, they must follow known and frightening terrorist organizations, world leaders will be saved! In 12 missions, you can also play a true elite warrior and opposite actor, Edgar Page, to experience different stories and plots. As far as you can tell you the story, the basic set of war topics has continued, and the player once again becomes a soldier who will save the country from trouble and even maintain world peace. From an obscure soldier to an extraordinary marshal, this will reproduce this magnificent process. This time the trouble is bigger, because the president has been kidnapped. The concrete story here is not spoilers, players or personal experience more interesting. At the level of playing, simply put, players will use the latest and most powerful weapon to kill from scratch to tail. The COD has 12 levels, which can be closed within 10 hours in simple mode. Killing the enemy there are three main ways: long-range shooting, crowding, using auxiliary weapons. Remote imaging is a fundamental game, players can have dozens of functions, the firepower of different weapons to switch between. When the player is closer to the enemy, the system will automatically switch to closing mode, click on the lower right corner of the dagger can trigger a bloody assassination. The auxiliary game of weapons also comes from call of duty, drones, vehicle machine guns, airstrikes and other auxiliary combat methods have enriched the content of the game. A game crisscrossed by many slow motion shots, in some special scenes one needs to slide the screen to perform some actions, such as fighting, crowding, also enriched gameplay. The two-month character set was made for a great bright spot. The players in the game are not only playing heroically rescuing the president of the United States, but also playing the head of the terrorist organization Page. This setting allows the player to better understand the story, even if you do not understand English, but also understand the core of the context of the game. Needless to say, the fun of one person decorating two corners also means that the player of the game can experience the pleasure of the game even if the evil spirits are instigable. Character modeling, environmental modeling, depth of field, lighting, color, detail, each of the visual effects gives a feeling is realistic and shocking. The huge amount of render depending on the location of the light gives an immersive feeling of immersion, and the placement of sunlight affects the distribution of the brightness of the entire environment, something that is otherwise unthinkable in other games. The effect of smoke is vivid. Whether it's smoke caused by the burning of a building or a black fog created by an aircraft explosion, it emits a strong sense of reality. It seems that you can feel the suffocating pungent smell after seeing Picture. Realistic firearms, blood being pierced by a bullet through an enemy jet, or shards of other objects, all send a message to the player - you're on the battlefield. The real effects of the environment, jungle or beach, military bases or buildings and reality are the same, the proportion of buildings, trees, people, articles just right, without any sense of incompatibility. The effect of death is realistic. The game uses the Havok physics engine and creates a natural sense of death, which means that the enemy will not immediately fall when hit, but will make a number of painful moves. Players will appear after cracking bleeding, red blood flowing down from the screen, the player will subconsciously find a place to avoid bullets. Background sound, plays a lot of effort to make the whole mime environment look real. The plane whistled past the sky, giving the player the feeling of flying overhead. Executive orders, cries of enemies, seat assignments instructions all using live synchronisation, full cinema. Ecological music extraordinary, each scene has its own unique melody, played a role with the action. Fight sound effects, different firearms will betray a different cracking sound, authenticity reflected. Hoot heavy weapons can give the player more auditory shock, grenades, grenade launchers, rockets, every punch is exaggeration.-apkawaRd.com There are eight multiplayer modes, which are War Mode, Life and Death Battle, Team Life and Death Battle, Capture Flag Battle, Pursuit Match, Conquest Match, VIP Mode and Barebone Mode. Each mode has its own unique game mode. Up to 12 people are competitive at the same time, which can bring complex entertainment. Different multiplayer modes require different coordination tactics and skills, which provide greater gameplay beyond a standalone battle.
